

## 14G服务器在IDRAC下更新BIOS的方法

手机浏览请扫描上方二维码，建议在WiFi环境下观看。

1. 登陆IDRAC管理界面，菜单栏选择维护->系统更新

内容	危急程度	前提条件	状态
<input checked="" type="checkbox"/> BIOS_79GKV_WN64_1.2.11_01.EXE	建议	无	Package successfully downloaded.

取消 安装并重启 下次重启时安装

2. 在系统更新界面选择手动更新，位置类型选择本地并点击浏览选择升级的BIOS文件

内容	危急程度	前提条件	状态
<input checked="" type="checkbox"/> BIOS_79GKV_WN64_1.2.11_01.EXE	建议	无	Package successfully downloaded.

取消 安装并重启 下次重启时安装

## 3. 找到BIOS文件所在的路径，选择需要升级的BIOS文件并打开

The screenshot shows the 'Maintenance' section of the IDRAC interface. Under 'System Updates', the 'Manual Update' tab is selected. In the 'Single Update Location' section, a file named 'BIOS\_79GKV\_WN64\_1.2.11\_01.EXE' is selected from a local path. Below it, there is a table for 'Update Detailed Information' with one item listed: 'BIOS\_79GKV\_WN64\_1.2.11\_01.EXE' (Content, Recommended, No Prerequisites, Status: Package successfully downloaded). At the bottom right are three buttons: 'Cancel', 'Install and Reboot', and 'Install for Next Reboot'.

## 4. 点击上载

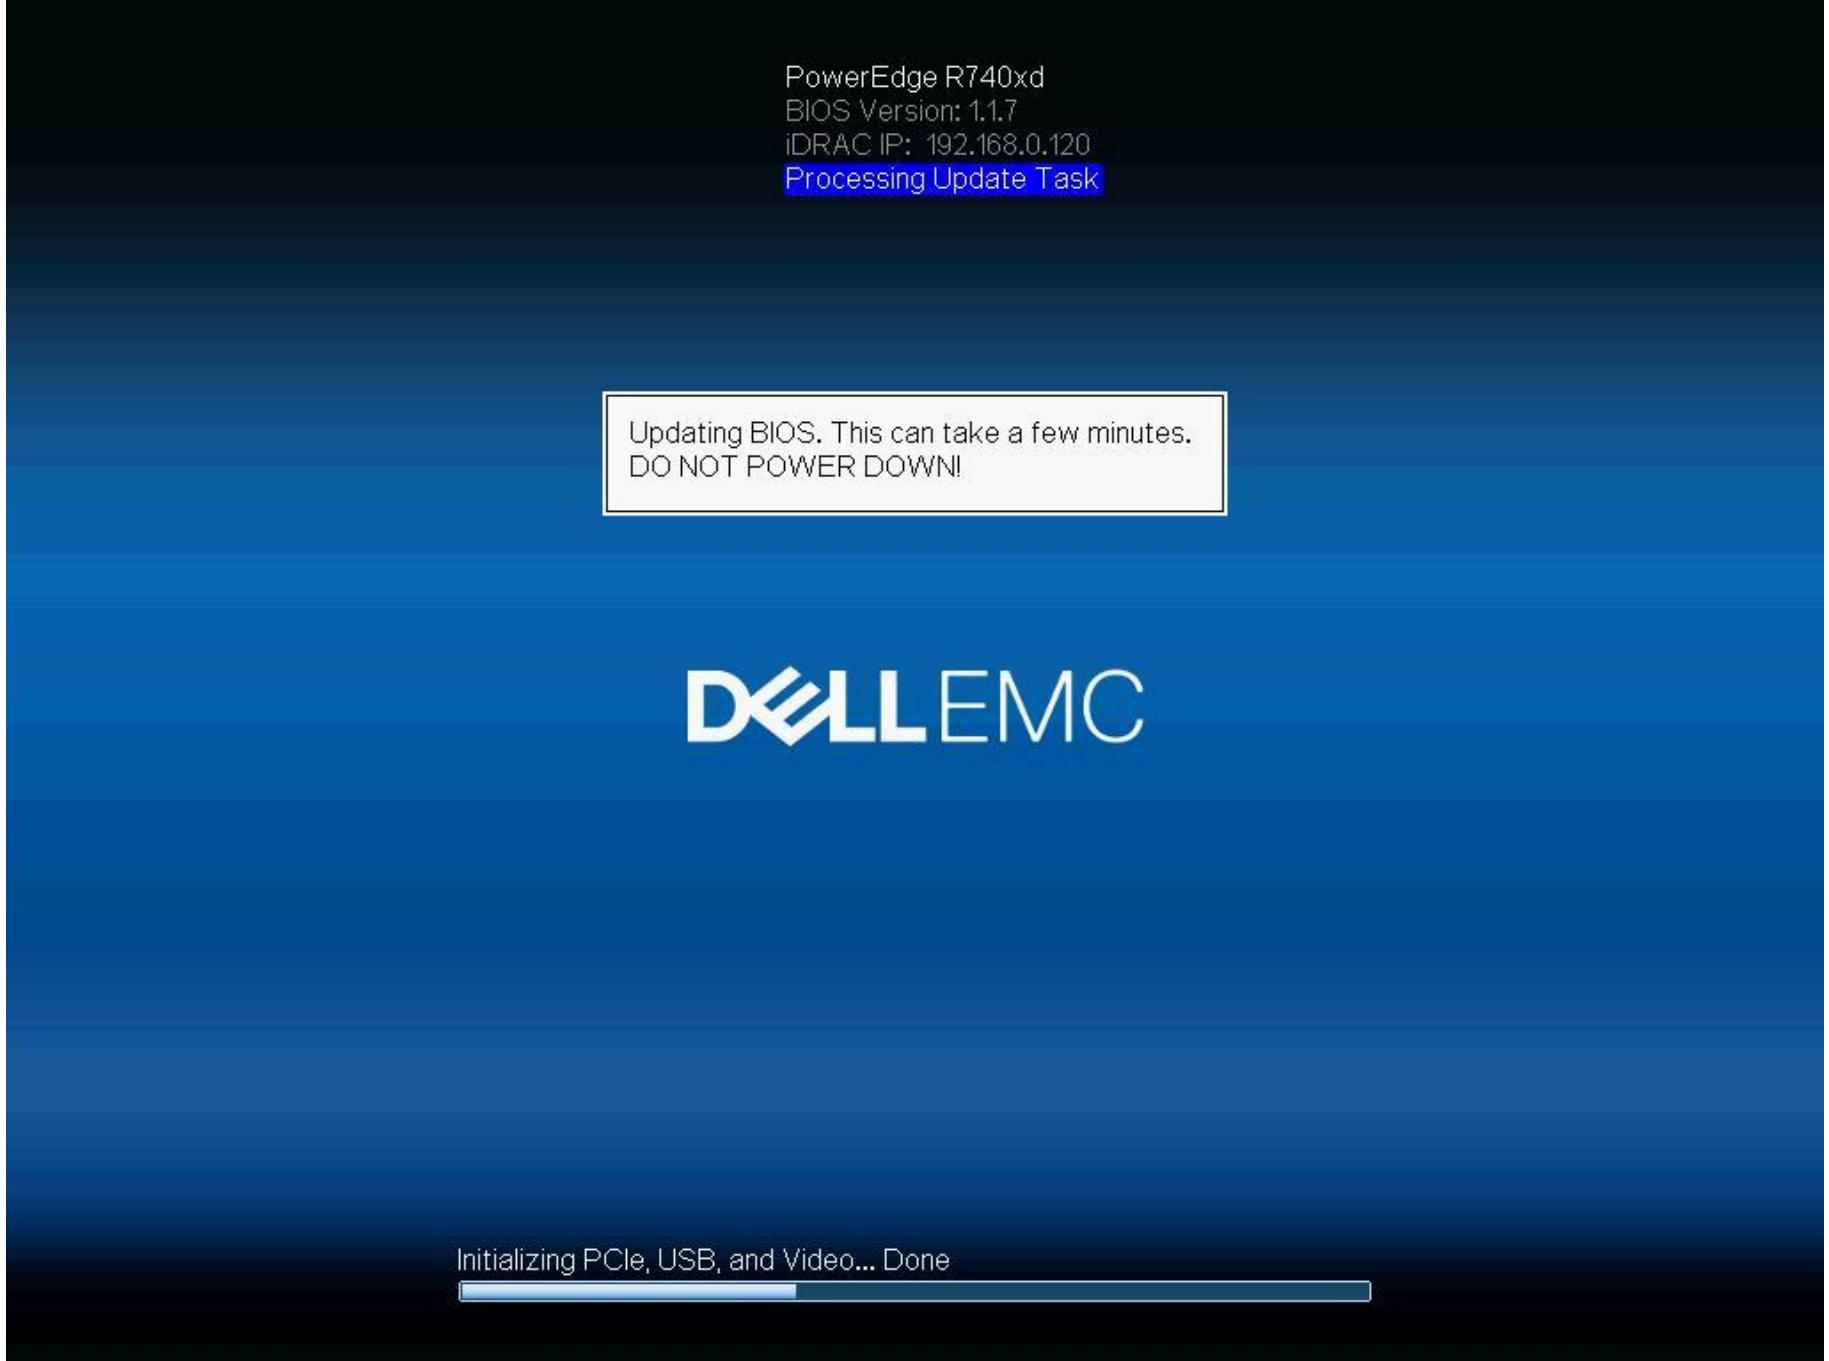

## 5. 勾选已上载的文件后，选择安装并重启

The screenshot shows the '维护' (Maintenance) section of the IDRAC interface. Under '系统更新' (System Update), the '手动更新' (Manual Update) tab is selected. In the '单一更新位置' (Single Update Location) section, a file named 'BIOS\_79GKV\_WN64\_1.2.11\_01.EXE' is selected from a local path. Below it, there is a '上载' (Upload) button. In the '更新详细信息' (Update Details) table, a row for the selected BIOS file is shown with the status 'Package successfully downloaded.' At the bottom right are three buttons: '取消' (Cancel), '安装并重启' (Install and Reboot), and '下次重启时安装' (Install at Next Reboot).

## 6. 提示信息：正在更新作业队列。可点击作业队列查看进度。

7. 系统自动重启并提示正在更新BIOS。注意：更新BIOS过程中请勿断电或者强制中止。

8. 完成后可重新进入IDRAC管理界面查看当前的BIOS版本，以确认更新成功。
